MINI-CONFERENCE CYCLE ON FORCES, PARTICLES AND THE BEGINNING OF THE UNIVERSE

Five lunch-time
debating talks, held
monthly, from
September 2025
to January 2026
from noon to 2 pm.

Rolf Tarrach

Quantum physicist and
Rector emeritus of the
University of Luxembourg

Restaurant
Bosque FeVi

Tuesday, September 23, 2025

The four forces of Nature
and their role in the Universe.

Tuesday, October 21, 2025

Atoms, nuclei, protons,
nucleons, their decays and the stars.

Wednesday, November 12, 2025

The elementary particles: electrons,
neutrinos and quarks, and their interactions.

Wednesday, December 3, 2025

Cosmology and particles: the quark,
nucleon, nuclei, atom, star and galaxies eras.

Tuesday, January 13, 2026

CERN: accelerators, beams and detectors
and its great discoveries and challenges.

The content of the cycle would
allow a knowledgeable visit to CERN.
